

Optometry Unites, Down Under

Bursary Sponsorship Opportunity

8-10 September 2023

ABOUT THE EVENT

The biggest eye care and eyewear fair in Australia combines with the most credentialed and largest annual optometry clinical conference in the Southern Hemisphere to bring you O=MEGA23/WCO4. The 2023 program will run in partnership with the 4th World Congress of Optometry to bring you an exciting international event that should not be missed. We anticipate over 2000 delegates will join us from around Australia, the region, and the world.

ABOUT THE OPPORTUNITY

Hosting a World Congress in Melbourne, Australia, is a unique opportunity. We don't want cost to be a barrier for our international optometry community to participate in the conference program. To encourage the involvement of young professionals, early career academics and colleagues from low income countries in particular, we are seeking support from institutions and organisations who would like to demonstrate their support for a truly international event.

YOUR ACKNOWLEDGEMENT

- Listed on the conference website
- Listed in conference program
- Acknowledged in conference promotions/social media

ABOUT THE PROCESS

The call for abstracts will include an opportunity to indicate if the presenter would need a bursary to support their attendance, should their abstract be accepted. All abstracts will be blind reviewed by the abstract panel, and the decision to allocate a bursary rests with the OV/SA Conference Committee. All presenters who are allocated a bursary will be required to make a financial contribution to their attendance also.

TIMELINE

Bursary sponsorship commitments confirmed by 20 May 2023.
